Of Local Interest.

A big crowd went to Cincinnati on the \$1.50 rate Sunday.

Don't forget the K P lodge Friday night. Work at every meeting.

Take a few days off and go over to Crab Orchard Springs. It will benefit you.

The L. and N. is making a very low rate to the great Lexington Fair this week. Go over and enjoy it.

Up-To-Date Thief.
A thief burglarized the Campbell county pest house for small pox patients and carried off twelve blankets.

Lancaster Lodge, 104, F & A M., will confer the Entered Apprentice degree this, Thursday, evening, at 7:30 o'clock.

Real Estate Property Sold.
The Dr. Bush residence, on Richmond street, was sold this week to U. D. Simpson. Price, \$1,800.

There are about 150 guests at Crab Orchard Springs now, a most congenial crowd, and one can spend a most pleasant vacation there.

Will Speak Monday.
Hon. Fontaine Fox Bobbitt writes The Record that he "may probably speak in Lancaster half an hour at one o'clock Monday, the 17th, not as a candidate for congress, but upon another important matter of much importance to the people." Let a good crowd hear him.

Great Convenience.
Messrs Henly and Ross Bastin are filling many orders for electric door and call bells. They are experts in doing this class of work. One of their novelties is a dining table bell, which by pressing a button the servant's bell in kitchen rings, and that with no noise in the dining room. These conveniences do not cost much and the Bastin boys are getting many orders for them.

Concert at Crab Orchard.
The Musical recital to be given at Crab Orchard Springs this, Thursday evening, will be one of the most enjoyable ever given in this section of the State, and a large crowd will attend. Miss Edith Ruble, a noted violinist, of the Cincinnati College of Music, Miss Laura McChord, vocalist, of the Chicago Conservatory of Music, and Miss Catharine Cain, pianiste, are on the program. The concert will be given in the large dining hall.

Important Notice.
Town taxes for 1903 are now due. I am always at Police Court room to receive them. You make nothing by delay, so come and pay now. S. D. Rothwell, Collector. a-14-tf

The W C T U will serve ice cream in the park Thursday afternoon at 3 o'clock and Thursday night.

Pretty Songs.
Mr Charley Storm, who plays cornet with Saxton's Military Band, of Lexington, has written some beautiful songs lately, which are attracting much favorable comment in the music world. They are exceedingly pretty, and are meeting with a ready sale. If you want something pretty to sing, something that will catch your hearers, secure some of this music. We will gladly order any one of them you may wish.

Will Hold Primary.
The Democratic County Committee met Saturday, Chairman Woods presiding, to consider claims from candidates for nomination for the legislature. There were three applicants, Chas. J. Walker, of this city, J. O. Bogie of Buckeye, and S. D. Cochran, of Paint Lick. After some discussion it was decided to hold a primary election on September 26th, to decide the matter. Secretary Hughes tells us two out of the three were willing to leave the question to the committee, but after due consideration it was deemed best to hold the primary.

Later.—Since the foregoing item was put in type, Mr Walker has withdrawn from the race, his card appearing in this issue of The Record.

A Beautiful Spot.
An agent for a large monument works told us the other day that he had never seen as many costly and handsome monuments in any town in Kentucky as were in the Lancaster Cemetery, nor had he ever seen a Cemetery so well kept. He said the monuments were all exceedingly tasty, and passed many other compliments on the pretty City of the Dead. And he is correct in his criticism, for no town has a prettier or better kept Cemetery. There are some lot owners, however, who pay no attention to the graves thereon, but they are so few that their lots attract attention and much unfavorable criticism.

Reunion of Morgan's Men.
There are definite plans now for the reunion of Morgan's men at Park's Hill, Nicholas county, August 18, 19 and 20. Arrangements have been made for board at \$1.25 per day for the veterans. The Committee requests that each comrade who intends to be present send his name and address and one dollar to Horace Taylor, Carlisle, Ky., manager of Park Hill Company, so that he will know how many to provide for. It is certain that satisfactory rates can be secured on all railroads. There are quite a number of Morgan's men residents of this section and it is presumed that all of them will be glad to attend and talk over old times once again.

A Card.
Some days ago some of my democratic friends suggested to me that I allow my name to go before the Democracy for the nomination for representative of Garrard county in the next General Assembly, saying to me at the time, that they believed that it would be agreeable to the party, and that a number of democratic leaders had so expressed themselves. With this understanding, I consented to go before the Committee and leave the matter in their hands. In the mean time, however, two other gentlemen became candidates for the office, one of whom demanded a primary election, and one has been called.

As this is a close county, I do not feel justified to leave my work and enter into a scramble for the nomination, and then make the final race, therefore my name need not be considered further, but I desire to express my most sincere gratitude to my many kind friends who stood so nobly by me, and I trust that I may be able to repay them. I believe that had I received the nomination, I would have carried your banner, to victory, and had I been elected I would have supported the policies of the Democratic party, and will vote for its nominees in November. C. J. WALKER.

Mexican Veteran Dead.
Mason Logan, who resided in Garrard for many years, died at the home of his daughter, in Crab Orchard, Sunday, and was buried at Freedom church this county, Monday. The deceased was a member of Capt. Johnson Price's company in the Mexican war, and was well-known among the Veterans of that conflict. Mr Logan moved to Lincoln county several years ago, leaving only one Mexican Veteran in this county, Capt. F. J. White, of The Record office. No soldiers are entitled to more praise and gratitude from the people of the United States than are the Mexican Veterans. What they did was purely for love of country, few, if any, going in to win applause from the people and puffs from the newspapers. They came home, went to work and made no parade or fuss over what they had accomplished. One very praiseworthy feature was that no politics was mixed in with the organization. It was stand up shoulder to shoulder and fight for the Old Flag, with no attempts at "grand stand" plays, or stunts for the galleries. All honor to the Mexican soldiers! May the little handful left spend their remaining days in peace and happiness.

After the concert at Crab Orchard tonight, a big ball will be given, a splendid string band furnishing the music.

You cannot find a more delightful place to rest up and recuperate than Crab Orchard Springs. The fare is splendid.

Jas. A. Slaughter, one of Boyle county's most prominent citizens, died suddenly, yesterday. The funeral will take place in Danville this, Thursday, afternoon.

Mrs Lewis Walker, who was taken suddenly ill at the funeral of Mr. Wm Ward, is somewhat improved, after several days' serious illness. Mrs Marshall Eason remains quite ill.

September 7th.
Prof. Mannix, of the Graded School, tells us the fall term will open on September 7th. Indications point to a larger attendance than in former years.

Teachers Institute.
The Garrard county Institute for white teachers will be held at the public school building Aug. 31st to Sept. 4th, 1903. All teachers are required to attend unless excused from attending by the County Superintendent, otherwise, their certificate will be revoked. Mrs L L Walker, Co. Supt.

Quick Settlement.
M. D. Hughes, District Agent for the Aetna Life Insurance Co., went to Stanford and gave Mrs T L Shelton a draft for \$1,000 for a policy which her husband had carried only two years in said company. This is one of the oldest and best companies in existence, and pays large dividends.

We have a few copies of Charles W Storms' beautiful song, "My Homestead on the Hillside Far Away," which will be sold for the low price of 25 cents. This song is meeting with a great sale, and, as Mr Storm has a number of friends in Lancaster, he sent us some copies.

A Big Reward.
The business men of Paint Lick have united with the National Board of Fire Underwriters and swelled the reward for the apprehension of the fiend who caused the recent fire there to the sum of \$1,000. Mr Estridge heads the list with \$500. The above mentioned organization will give \$250, Peoples Bank \$100, Moore & Champ \$50, Guy Rice \$50, R L Jennings \$50. With this large sum the probabilities are that the guilty party will be located. The Record sincerely trusts this effort will result in good. The large sums given show a splendid spirit on the part of the hustling city.

A grand ball will be given at Crab Orchard Springs tomorrow (Friday) evening. Many visitors will be present and a big time is expected.

A Cure for Smallpox.
A recipe is herewith appended which has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox through the ditings or fillings. When Jenner discovered cow-pox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—published this as a panacea for small pox, it passed unheeded. It is as unfailing as fate, and cures in every instance; it is harmless when taken by a well person. It will also cure scarlet fever. Here is the recipe as I have used it to cure my children of the scarlet fever; and also to cure small pox. When learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; fox glove (digitalis) one grain; half teaspoon of sugar. Mix with two table-spoons full of water. Either disease will disappear in twelve hours. For a child smaller doses according to age.—Ex.

"Lovely" Resort.
According to the press boys, the "Royal Muskoga Hotel," is a mighty good place to stay away from. All the papers in the state are giving the joint, a round roast. Editor Harry Sommers of the Elizabethtown News, says:—"After enjoying a delightful ride across Lake Muskoga, the only cold reception the editors received was at the Royal Muskoga Hotel. The band was sent away the very night that we arrived and the party was cheated out of the dance. The proprietor or manager of the hotel was so affected by the cold breeze of the lake that he gave the party a cold reception and demonstrated his entire unfitness for the place he holds. Some foolish whiskey drummer told the people of the hotel to close the bar before the Kentuckians got there for if he did not they would all get drunk and shoot the windows out of the hotel. So when we got there the bar was closed and most of the guests were so frightened that they went to bed. In face of the fact that the party was composed of ladies and gentlemen and not a single man was under the influence of liquor throughout the entire two weeks. The lights of the hotel were turned out at midnight and the editorial party was forced to bed whether they wanted to go or not. After our treatment, no Kentuckian will go to Muskoga."

"America" Revised.
A friend of The Record sends us the following lines:
God save our noble Ted,
And cure him of swelled-head,
God cure him soon,
Now he is color-blind,
Clear vision may he find
Soon have sufficient mind,
To know a coon.

CENTRAL RECORD.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as Second-Class Mail Matter.

Lancaster, Ky., August 14, 1903.

After a most honorable service of forty-two years, Lieut. Gen. Nelson A. Miles was placed on the retired list of the Army last week, he having reached the age provided by law. His military service began in 1861 and he saw more fighting during the civil war than most other officers. After the civil war General Miles distinguished himself as an Indian fighter. One after another, Sitting Bull, Chief Joseph and Geronimo were subdued and all danger of Indian war forever removed. During the Spanish war, he, with the rest of trained soldiers, were shoved aside for political pets, or rather an attempt was made to shove him aside in the public eye, but the people knew where the real merit came from, and to whom honor was due, so the feather bed, politician, tin "soldiers" grew very jealous and the Washington politicians, to use a slang expression "had it in" for the gallant Miles. They knew he justly received the great praise given for him, and school boy like, harassed him at every opportunity. Gen. Miles is a great man, a gallant soldier, and the public appreciates his worth, and will always honor his name.

The editor of the Democrat can not refrain from expressing his high appreciation of the testimonials of personal regard extended to him by the members of the Kentucky Press Association. An elegant traveling case is the latest arrival from some unknown quarter, and now if he can only find something to put into it he will wear out his railroad passes running around showing it off.—Harrodsburg Democrat.

We congratulate you, Bro. Brown, on your good luck. You would gladly send over some apparel to fit in that grip, but the trouble is we would have to remain in doors, or wear a headless barrel by reason thereof.

Dora Clay Brock, the child wife of Gen. Cassius M. Clay, is probably the only woman who ever made any "profit" on husbands. She claims a big sum from Gen. Clay's estate and now is to sue a railroad company for \$25,000 for killing husband No. 2. As about ninety-nine per cent of the women find marriage a complete failure, we hope Dora will get all she goes after.

If Curt Jett, the assassin ever mounts the scaffold he would doubtless tell a lot on those who hired him to kill Marcellus and doubtless other men. He will never be hung. In the language of the illustrious Col. Tom Hill, "mark my prediction," he will never go to the gallows. He might "peach" on "prominent" men.

In his examination Curt Jett, the Breathitt outlaw, said his "trigger finger" was not injured. As Curt's trigger finger is all that was needed of him, no serious deficiencies were present. That finger was all he knew how to use, and that is all those behind the trouble wanted with him.

Prof. Anton Siegfritz, of some such dutch name, has "discovered" that insanity is caused from eating oysters. The surprise at finding one in church supper soup is enough to drive a fellow distracted.

The Covington company of State militia, on return from service in Breathitt county, got howling drunk in Lexington. It seems to us that those who are compelled to remain in Breathitt for any length of time have at least one good drunk coming to them.

Gen. Cassius M. Clay, "the Old Lion," who was known in life as a fighter, in every sense of the word, seems to have determined to keep the ball rolling after death, as he left six wills for the courts to grind on.

"Sock Socials" are quite a popular fad now. That's one class of entertainments to which country editors can work off the ladies' stereotyped excuse, "Haven't anything to wear."

Some wag, who has the happy faculty of seeing a bright side to every thing, says "think how trifling is your own discomfort this hot weather compared to that of the coal dealer."

St. Louis policemen who are bigger around their waists than they are around their chests are to be dropped from the force. In other words, the beer-guzzler must go.

It is reported that Eastern college students are doing work in the Kansas harvest fields. That's one of the many things we will have to see to believe.

The State authorities should send a lot of toy pistols to Breathitt county. They are more dangerous than galling guns.

A million gallons of fine whisky burned at Glasgow recently. Verily, this is a day for horrors.

Rhea Discusses Negro.

Representative John S. Rhea, of Russellville, Ky., in an interview at Washington, says that in his opinion the negro question is purely a State problem and a matter with which Congress should not attempt to interfere by legislation.

"This may seem to be an odd view of the case," said Mr. Rhea, "but in my opinion it is the proper one. Let the Federal Congress keep its hands off the question and attempt no such action as was anticipated by the Crum-packer resolution which died recently of its own ridiculousness in the House. The people of each State are capable of handling the problem: Let the white people of Kentucky deal with the negroes of that Commonwealth and the people of New York State deal with the question there.

"Down in our section we are ever ready to do the right thing by the negro. We know what he wants and what he requires. The man who lives in New York and who may represent a district of New York in the House knows nothing of the Kentucky negro and what is best for him. Let that man keep hands aloof. I think that in this way the whole problem can be dealt with satisfactorily to all concerned.

"If the people of a Southern State desire to adopt a Constitution disfranchising negroes let the North allow that action to stand without protest. I think the negroes of the South generally understand that the white people of that section having had the negroes in their midst for two centuries know what is required."

Coal.

When you want to get your money's worth go to J. T. Williams and buy genuine Jellico Coal, the East Tennessee that runs a canal, and the best that comes to Lancaster.

Oct 1 J. T. Williams.

The Corn Crop.

It is natural that there should be a deal of solicitude throughout the country as to the possible corn crop of 1903. In 1902 the crop was large and valued at \$740,000,000 or nearly \$200,000,000 larger than the high priced cotton crop of the same year and \$200,000,000 more valuable than the wheat crop. At the present time the corn crop is considered uncertain all over the union. The weather during June was unseasonably cold, and the floods and freshets in the southwest did much to damage the corn in the fertile bottom lands of Illinois and Missouri. In all sections the corn is very late.

The growing corn was considerably smitten by frost in some of the northern states, but the farmers hope by replanting to secure a good deal of what is termed forage crop. "The corn crop must be perilous for the reason that the price of corn now rules in the Chicago market much higher than it was six weeks ago. But the strangest of commercial conditions is the fact that the price of live hogs receded with the advance in corn.

We do not think there is as yet cause for serious alarm. August will make corn, and the warm weather may extend into the latter portion of September. If so we shall have a great corn crop. The overflooded lands in the Illinois and Missouri bottoms will be replanted with corn, and if the soil is still warm by the 20th of September the corn crop will mature.

All admit that wheat will prove a very large crop. The estimate is 782,000,000 bushels, or the largest crop ever raised in the United States. Mother Earth is always the bounteous parent of general prosperity and the hope is now not unwisely indulged that that parent will show her usual good sense in feeding her children with that staple which supplies the mill, which sustains the cattle, which moves the machinery and which insures that abundance of provisions to make the workers in every craft and every industry sturdy, independent and fore-handed.

The Railroad Fireman.

Decatur, Ills., Aug. 1, 1903.

Editor Record:—In looking over a recent issue of our old home paper the "Record" I came across a paragraph extolling the virtues of the brave engineer, the competent brakeman, the gallant conductor in his jaunty uniform and polished buttons, and all railroad employees to the exclusion of the locomotive fireman. I do not wish to disparage others, but would like to show on behalf of the fireman, that there is at least one place where they share equal responsibility with the engineer. We have no negro fireman on the Washburn lines. The young fireman who reads the orders over to the engineer and takes the left side of the cab must be of good moral character, have a fair education, must have good judgement, attend time card schools, and pass a strict examination on New York and Westinghouse air brakes before he is considered competent to fire the limited trains which are run between Chicago and St. Louis. If our friend who fails to see the responsibility of the fireman would make one trip with one of our boys on our No. 9 run, commonly called the Buffalo Mail and watched things closely he would be satisfied that there was more than the brave engineer in the cab. The fireman, besides handling on an average of 6 tons of coal in 2 hours and 20 minutes must call 26 orders "clear or red" as he sees them, the engineer repeating "clear or red" after him. He has eight railroad crossings with electric inter-locker plants to cross, and three station stops, at one which he takes a full tank of water. He must use 26 minutes over the Terminal tracks going into St. Louis which is a network of electric signals, and where one little mistake means a big loss of life and property.

This run is made with engine 604, weighing 78 tons, 113 miles, three stops in two hours and 20 minutes. When that engineer backs his long train of Pullman cars in Union Station on time he has had a fireman who could take responsibility and keep a stiff upper lip. It is a well known fact among railroad men that a good fireman and a good air pump have made many brave engineers.

Hoping this may interest you, I ask to remain a friend of the Record, Will H. Layton, formerly of Garrard. Member of J. M. Raymond Lodge No. 48, Brotherhood of Locomotive Firemen.

Was a Useful Citizen.

The funeral of Mr. William Ward, whose death was mentioned in last issue of The Record, took place at the Lancaster Cemetery last Friday morning, conducted by Dr. E H Pearce, pastor of the Methodist church. One of the largest assemblies of people seen in the Cemetery in many years was present to pay respect to the memory of the deceased. Mr Ward was a zealous member of the Odd Fellows, but in deference to his aversion to show and parade, the lodge did not attend in a body or conduct the usual ritualistic services. Dr. Pearce read several passages of scripture, made a few appropriate remarks and offered an earnest prayer, a choir singing several hymns. Mr Ward was a consistent member of the Methodist church

handsome building like that erected in Lancaster." How many men like that have we in Lancaster? What does it mean to a town to lose a man of that spirit? He was the same way in all undertakings for the betterment and upbuilding of the town, always ready to donate his time and means, and that liberally. No man ever heard him speak an evil word of any one, on the other hand he was ever ready to resent any unfavorable comment, and had a contempt for idle gossip or backbiting. Mr Ward's good deeds were not paraded from the housetops, and many a favor has he done of which the public and few individuals knew. Many times have we heard the expression, "If I wanted a favor, I would rather go to Will Ward for it than

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of flux," (dysentery) says Mr T A Pinner, a well-known merchant of Drummond Tenn. I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists. 1 m

Sweet potatoes are looking quite well and prospects are good for a large yield.

A Trimble county woman has a jar of gooseberry preserves in perfect condition, put up forty-one years ago.

There's no old corn to be had in some parts of Mason county and mighty poor prospects for any of the new article—Maysville Ledger.

All my happiness I owe to the central effort that my father and mother made to make home the happiest place on earth.—Edward Hale.

The average yield of wheat to the acre in Europe is 38 bushels. Much more labor and fertilizer is given grain fields in the old country than in ours.

The oat crop of Oklahoma will be the largest ever yet harvested. Seventy-five to one hundred bushels to the acre is the yield indicated in some of the newer portions of the territory.

The farm of the late Dr. E. R. Roe, in Shelby county, containing 400 acres was sold last week to wind up the estate and brought \$40,000. Dr. Roe formerly lived at Sharpshurg.

Linville Bros., near Pinckard, had 100 acres of wheat that made 21 bushels to the acre, which they sold to J. W. Newman at 75c delivered on car at Pinckard—Woodford Sun.

Corn will produce more cow food per acre than any other plant grown in the Middle West. So corn should constitute a large portion of the crops raised. A part of it should be put in a silo to preserve its succulence.

Live cattle exported from the United States during the fiscal year ended June 30, 1903, amounted to 326,952 head; exports for the previous fiscal year were 318,994 head, showing an increase for the present fiscal year of about 2.5 per cent.

Several car loads of walnut stumps have been delivered at the depot for shipment to a New York firm, most of which have been collected from the Station Camp neighborhood. Some of these stumps, particularly of the curly or bird's eye variety, are very valuable.—Irvine Herald.

The sunflower crop is one of the best paying in Russia. A good crop is worth, as it stands in the field, \$25 an acre. The seeds are sold by the farmer for from \$1 to \$1.50 a pound, then the merchants salt them and retail them for \$3 a pound.

The Bath county Messenger says that in that county there has not been enough rain to prevent plowing since the first of April, the oats and wheat crops were very short, grass is badly burned and those who ought to know say that early corn is almost a complete failure, while the prospect for late planted corn is poor indeed.

A special from Barbourville says:—"The corn crop through this part of the State was never known to be better than it will be this year. There is a great deal of corn out in Knox county, and it all looks remarkably well. There is not as much hay this year as usual, but the quality is very good."

W. B. Kennedy, a Paducah tobacco broker, has just shipped 2,250 hogsheads of tobacco he bought for a foreign Government at Mayfield and Paducah within the past two weeks. The value of the tobacco was \$250,000 and the freight alone was \$20,000. This was the largest shipment ever made out of Paducah, requiring ten trains.

Dan Peed bought the crop of tobacco of Howerton & McDowell, Wednesday, 15,000 pounds, for 9 cents, and

the crop of Howerton & Watson, 9,000 pounds for 6 and 2 cents... Hibler Bros. bought of J. L. Soper, of Little Rock, 40 1,330-pound cattle at \$4.20; of R. P. Hopkins 52 1,200 lb cattle at \$4.15; of James Ferguson, of Paris, 35 1,150 lb cattle at \$4.35... Jonas Weil shipped a train load of fat cattle from this city, and shipped a train load. They were all export cattle and bound for the East. Quite a number of them were purchased in this county at from \$4.35 to \$4.60 per hundred.—Paris News.

The best heifer calves are none too good, and the dairy farmer can, as a rule, raise better cows than he can buy in the markets. If cows are in milk from September on during the four succeeding months, it offers good opportunity to raise fall and winter calves that will be able to care for themselves nicely by the time the pastures are ready for them in the spring.

The Owensville Messenger says that two young ladies near that town each raise every year a good crop of tobacco and other saleable farm products. The crops are the average size that men raise and these young women do all the work from planting the seed to loading the crops on the wagon for market. These young women do not have to do this work as they could live comfortably at home without it. They do the work for the pleasure of having a bank account and the glorious privilege of being independent.

Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constipation, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25 cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25 cent size has just been introduced this year. Regular size 75 cents. At Stormes' Drug Store. G. G. Green, Woodbury, N. J. Aug. 29

The vast amount of money which the farmers and planters of Georgia used in the purchase of commercial fertilizers the past season (nine and one-half million dollars) is an indication of how much dependence is placed upon this class of fertilizers, mainly for the production of cotton, which is the money-producing crop in that State.

Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boesche's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but severe Coughs, Brochitis, Croup—and especially for Consumption where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. At Stormes' Drug Store. Aug. 29

FLAVOR OF OUR SOIL. Ideal Life in Old Kentucky—The Cheapest Living on the Globe.

These are the days when the individual who doesn't enjoy country life in Kentucky ought to go off and die. Promptly at three o'clock in the morning a mocking bird swinging on the topmost branch of a big pear tree in my garden opens the concert with a beautiful song of thanks, that it is well with him and that worms are plentiful, writes J. M. Richardson in the Glasgow Times. Then a robin red breast warbles a sweet refrain, a dove coos, a cat-bird screams, a jay-bird gets up a light, the trees are alive with the voices and music of wild nature, and, last of all, humanity rubs its eyes, yawns and crawls out of bed for breakfast. And such a breakfast as you can get in the country in Kentucky! Breakfast bacon, soft boiled eggs, ripe tomatoes, yellow butter, cream as thick as a Republican's head, milk as rich as Rockefeller, coffee more grateful than old Bourbon—that is for breakfast—all preceded by a dish of raspberries, just as the raspberries follow the strawberries that have gone a month before. Lord! if your mouth doesn't water it's because you are not a watering man. If you are not in favor of breakfast bacon in the above bill of fare, write off a chicken head and call it fried spring chicken instead of breakfast bacon. If you are not a chicken lover, then a visit to the smoke house brings out a country ham, smoked with hickory and cured in red pepper and ashes, and if a slice of that doesn't reach your appetite you are a dead man. As to diners they are simply dreams of delightful epicureanism. Snap beans and streak-of-lean and streak of fat bacon, old fashioned corn bread with prints of cook's fingers where she has patted the pones, onions, sliced tomatoes, new potatoes, green peas, crisp radishes, tender young cabbage, early sweet corn, a couple of chickens split up the back and baked—"smothered," I believe the good housewife calls them—all the good cold butter milk and sweet milk you can stand uprisit down to, topped off at last by a luscious apple pie or a great big blackberry cobbler, cooked in a big tin pan and side crust and bottom crust saturated with juice. As for supper—well now to tell the honest truth, when I take a crack at the above named victuals twice a day by the time the third meal arrives I can only eat a few raspberries with cream on 'em and some cooked apples, and a small piece of boiled or broiled cold ham, and a pone or two of corn bread, and a glass or two of milk—just a little snack, as it were to stay my stomach until the next morning. And then I lie down to pleasant dreams. This is the sort of fare you get in almost any well regulated country home in Kentucky just now, and the beauty of it is that it is all raised on the place, costs comparatively nothing and is the best living on earth. I sat down the other day to a table graced with nine different vegetables—and the hostess insisted on my taking ice cream and cake afterwards! As a matter of fact I had already eaten so much it made me poor to carry it. This is why I say that no people on earth live better, and none can live more cheaply, than Kentuckians, and why I make the undaunted assertion that the man who cannot now enjoy life in Kentucky ought to go off some where and die.

Squally Times.
—They had a tornado out in Kansas recently, and the usual stories beginning to put in their appearance in the Kansas papers. That State has a new settler since the last whirlwind, however, for three new stories have come to light. One tells of a farmer who was ploughing when the big wind struck him. What became of the rustic is omitted, but the tornado caught the plough in its vortex and whirled it round and round until the entire field had been nicely ploughed. Another farmer had a lot of corn stored in a bin. In the side of the bin was a knot-hole. The tornado caught the corn and drove the cobs through the knot-hole, shelling the corn and leaving it in a nice little pile on the floor. The third story is about a wagon which was standing in another farm yard when the breeze came along and upset it and started the wheels spinning. The wind was so hard that one of the wheels is still revolving and it is impossible to stop it.

Had Nothing to Will.
Brutus Clay, son of the late Gen. C. M. Clay, told the Richmond Climax a dozen or more wills of his father will probably be filed for probate, but none will be of any effect as his father had only a life interest in the real estate and had nothing to will. He owed \$13,000 to the contingent fund of the Green Clay estate, which will absorb all the personal property and still leave a deficit of \$8,000 or \$9,000. As for the will leaving White Hall and 300 acres of land to the Government for a National Park, Mr. Clay said that as his father did not own the property this, too, was worthless.

According to Mr. Clay's statement about the will, Dora Brock, General Clay's divorced wife, will not get a penny.

SEPTEMBER NUMBER

New Idea Woman's Magazine.
The women who clamor for advice—how to turn their time and talents to account—will receive many valuable hints from the series of articles entitled "Profitable Industries for Women," which is begun in the September number of the NEW IDEA WOMAN'S MAGAZINE under the heading of "Poultry raising," from the pen of Sarah E. Slater. The new department of "Con-

rect Dress for Men," also begun in the September issue and contributed by Hawthorne, a well-known authority in haberdashery, bids fair to be of paramount importance in this periodical, because many women do much of the shopping for the men of their families and are glad to have suggestions. Every item in the September number, either technical or fictional, is of more than passing interest.

Say This Rapidly.

In reply to "Wood's" question, "How much wood would a woodchuck chuck if a woodchuck would chuck wood?" I would say, "If a woodchuck would chuck all the wood that a woodchuck could chuck if a woodchuck could chuck wood, a woodchuck could chuck wood." I wonder if "Wood" knows that "Betty Botter baked a bit of batter, but the batter was so bitter that to make her batter better Betty Botter bought a bit of better batter, and with this bit of better batter Betty Botter made her batter better."

The secret of dress is the location of the pocket.

DeWitt Is the Name.

When you go to buy Witch Hazel Salve look for the name DEWITT on every box. The pure, unadulterated Witch Hazel is used in making DeWitt's Witch Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. DeWitt & Co., Chicago. Save the Children.

Ninety-nine out of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, of Nashville, Tenn., says, "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by F. P. Frisbie. 1 m

All things come to those who wait—except now and then the waiter.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years writes his personal experience with Foley's Kidney Cure; "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success. C. C. & J. E. Stormes. 1 m

FARM,

Tools etc for Sale.

I have decided to quit business and go South and will offer for sale my farm of 47 acres situated 5 miles from Lancaster on Buckeye pike and known as the Joe Turner farm. Place has two houses, 1 good six room house and 10 acres of the best orchard in the state. Good fences. One half of land in timothy balance in hemp and corn. Crops will show quality of land. Sugar Creek runs through the place on one side and affords plenty of stock water. Is as handy a little place as one could want, in good neighborhood and can be placed in graded school district if desired. Desire to sell privately. I also have a good lot of farming tools, wagons, plows, drills, cultivators, harness etc., in fact anything needed on a farm. Will also give some one a bargain in a good paying live business. Does about \$500 business per month and only has about \$10,000 invested. I mean to sell and some one can make money by seeing me at once. Can give possession of live and farm by Jan. 1st 1904. Terms made to suit purchaser. Call on or address W. H. Ward, Lancaster, Ky. 8-10-04.

Persons troubled with indigestion or Dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention, digestion and assimilation of all of the wholesome food that may be eaten, and enables the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by F. P. Frisbie. 1 m

As long as some men are able to contract new debts they don't let their old ones worry them.

Foley's Kidney Cure will cure all diseases arising from disordered kidneys or bladder. C. C. & J. E. Stormes. 1 m

In severe cold weather always dip the bit in cold water (not hot water) before bridling. Many sore mouths can thus be avoided.

I have practiced medicine for 36 years and have consulted the leading physicians in this country in regard to a remedy for Dyspepsia, but have never been able to find anything that would effect a cure until I used Kodol Dyspepsia Cure. I have suffered with stomach trouble for years. Could not eat anything but milk toast for months but since I used Kodol I can eat anything and feel that my health is better than it ever was in my life. I can not say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia it taken as directed.—M. D. Steel, M. D., Big Hill, Ky. Sold by Frisbie. 1 Aug.

About the worst thing a person can take for a cold is advice.

Not Over-Whip.

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists. 1 m

Tears are the spectacles through which a woman sees her wishes granted.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by McRoberts, druggist. 1 m
